

FAQ: Tasting And Review

Where do I ship samples for Tasting and Review?

Please see the bottom of this page for a complete listing of reviewers and the regions they cover, as well as their shipping addresses on page two. If you have any questions please check with the Tasting Department prior to shipment.

How many samples do I ship? Is there a fee for submitting samples?

There is no fee for participation in our tasting and review program. We ask that submitters provide two bottles of each wine to be tasted; single bottles will be accepted, but we cannot guarantee individual follow-up if the sample provided is corked or otherwise compromised.

What do I have to include with my wine submission shipment?

All wine sample shipments must contain a completed wine sample submission form. The form can be found on our website at www.winemag.com/contact or by reaching out to our Tasting and Review department at tastings@wineenthusiast.net. If you cannot include the paperwork in the shipment, please email or fax a copy of the form directly to the reviewer or the Tasting and Review department.

How do I find out if my wine has been reviewed and the score it received?

Regional Manager Denise Valenza will make every effort to notify the label contact indicated on the wine sample submission form when samples have been reviewed and scheduled for publication. You will not be contacted regarding the rating and review of your wine if accurate and current contact information is not provided with your sample submissions. Submitters are welcome to address inquiries regarding submissions to our Tasting Department, or check out our website and Buying Guide: www.winemag.com and buyingguide.winemag.com. With the exception of shipping questions or concerns, please do not contact individual reviewers.

Where will the reviews of my wines appear?

We cannot guarantee that any individual submission will be reviewed, but strive to provide the broadest coverage possible. We recommend utilizing the Buying Guide Tasting Schedule to gauge when to submit samples for possible tasting and review. To meet our production schedule, we generally taste samples four months prior to an issue's publication.

Generally, wines submitted to individual reviewers are considered for Buying Guide coverage for our magazine and website. For editorial content in the body of the magazine, reviews are not always included. In the cases where they are, wines may be solicited by the individual writers to enhance their articles. If you ever have any question about the legitimacy of a sample request, please contact our Tasting and Review department (tastings@wineenthusiast.net); we will be able to confirm if the request comes from one of our writers for a scheduled article.

In the case of California and Australian wines, we publish reviews on a rolling basis. Our editors review wines all the time. Notes are regularly added to our database and subsequently assigned publication dates. Italian wines are often tasted through arrangement with the various consorzios; please contact Italian Editor Monica Larner for more information on when specific Italian regions will be reviewed.

Who will taste my wines?

We encourage all Wine Enthusiast reviewers to taste as much and as broadly as possible, but we do have primary reviewers for many wine regions, listed below.
